

colourline case study

Customer:
NCP, Ashington

Product(s):
Apton Colourline

Frame colour:
Ironbridge

Wall covering:
From the Dixon Turner Access range

Door veneer:
Ash

The brief:

01 To create a suite of offices on two floors including boardroom and meeting room.

02 To ensure a bright modern office environment giving the effect of both space and privacy.

Key features:

Apton ash finished doors with vision panels.

Apton door height double glazed units with white perforated blinds.

Ironbridge grey track and frames incorporating stylish light grey top hat trim finish.

Why chosen?

The Apton system was chosen because of its superior finish and the ease with which it can be relocated, causing minimum disruption, should office requirements change.

Additionally, Apton windows are factory assembled and panels are pre-decorated which ensures fast

installation with no follow-up visits required.

Furthermore, all the necessary modules, components and fittings required to complete the installation in full are included at delivery on to site.

The result:

Modern, functional, stylish office environment offering a combination of comfort and privacy.
